

## UNFPA NEPAL HUMANITARIAN RESPONSE IN THE COVID-19 PANDEMIC **GENDER-BASED VIOLENCE**

**Co-led** the Protection Cluster and Gender-based Violence (GBV) Sub-cluster at the **federal level and three provinces**, ensuring a robust and well-functioning coordination mechanism.

Led the development of a **training module** under the GBV Sub-cluster to strengthen the capacity of gender-based violence service providers to provide survivor-sensitive and multi-sectoral services.

Provided technical support to map GBV referral pathways in all **753 local units** and **seven provinces**.

Supported in developing **guidelines** to ensure continued availability of GBV prevention and response services.

Strengthened capacity of **14 hospital-based One Stop Crisis Management Centers** and provided health and psychosocial support services to **1,688 GBV survivors.**

Strengthened capacity of **2,024 gender-based violence service providers** to provide survivor-sensitive and multi-sectoral services.

**12,300**  
(majority of them women and girls) with reached psychosocial first aid services and referrals for GBV survivors through community-based psychosocial workers.

**5,035 women and girls** affected by both COVID-19 and monsoon-induced disasters received Dignity Kits and Kishori Kits.

**Three million** reached with messaging on GBV and harmful practices and information on relevant services.

*Figures cover the period until 2020.*
