**Queries submitted by prospective bidders on RFQ N° UNFPA/NPL/RFQ/24/021 -
Development of a Video on Gender Based Violence (GBV) and Sexual Reproductive Health
and Rights (SRHR) linkages**

Question: Will the video production require travel to specific locations such as safe houses or One-Stop Crisis Management Centers or existing archival footages be provided?

Answer: *The video will be fully animated, eliminating the need to visit locations. However, existing photos of one-stop crisis management centres and safe/shelter homes can be used as references for creating the animations.*

Question: Could you clarify the expected number of shooting days and whether animation is required as part of the video?

Answer: *The video will be entirely animated, removing the need for live video shooting.*

Question: If available, could you share sample videos for reference to better understand the desired style and approach?

Answer: *Please use this video as a reference. We will provide a moodboard later, and the animations should reflect the context of Nepal, featuring Nepali people, nature, and structures.*
