

Provincial Programme Analyst, Gender-Based Violence (GBV)

Job title:	Provincial Programme Analyst, Gender-Based Violence (2 positions)
Level:	NOB (ICS-9)
Position Number:	160465 and 160462
Location:	Province 2 and Karnali Province
Full/Part time:	Full-Time
Fixed term/Temporary:	Fixed term
Rotational/Non Rotational:	Non-Rotational
Duration:	Initially one year, renewal subject to satisfactory performance and funding availability

The Position:

The Provincial Programme Analysts, Gender-Based Violence (GBV) will be based in the UNFPA Offices in Province 2 and Karnali Province respectively and will be responsible for supporting the planning, conceptualization, implementation, monitoring and assessment of GBV interventions in development and emergency settings in the concerned provinces. Operating under the direct supervision of the Programme Specialist, GBV, the two positions will oversee the effective management and implementation of the “Gender Based Violence Response to COVID-19 in Nepal” project, funded by the European Commission, and in doing so ensure the availability of essential prevention and response services for GBV survivors during and after the COVID-19 lockdown.

The GBV Provincial Programme Analysts will maintain collaborative relationships with the government line ministries and departments, civil society constituents, the United Nations funds, programmes and specialized agencies and other development organizations.

How you can make a difference:

UNFPA is the UN’s sexual and reproductive health agency, taking the lead in delivering a world where every pregnancy is wanted, every childbirth is safe and every young person's potential is fulfilled. UNFPA’s current Strategic Plan (2018-2021) reaffirms its goal of universal access to sexual and reproductive rights, focusing women, adolescents and youth and focuses on three transformative results to be achieved by 2030: to end preventable maternal deaths; end unmet need for family planning; and end gender-based violence and harmful practices against women and girls.

UNFPA recruits principled and ethical staff with a firm belief in and commitment to upholding human rights and gender equality, who embody UN international norms and standards, and who will defend these diplomatically and courageously.

UNFPA is seeking candidates that transform, inspire and deliver high impact and sustained results and who are true team workers; we recruit staff who are transparent, exceptional in how resources entrusted to us are managed and are committed to delivering excellence in programme results.

Job Purpose:

Since its outbreak, the novel coronavirus has infected millions of people globally and generated a wide range of primary and secondary effects on individuals and communities, with the most vulnerable groups enduring the greatest impact. The Director General of the World Health Organization declared COVID-19 a global pandemic on 11 March 2020. As of 26 August 2020, Nepal's Ministry of Health and Population (MoHP) has confirmed over 33,000 cases of COVID-19 and 164 deaths. The Government of Nepal took swift action, declaring a lockdown from 24 March 2020 to protect the health and safety of Nepal, which included the closure of public and private facilities and businesses, travel restrictions, self-isolation, and quarantine measures. This directive, though essential and in line with global efforts to 'flatten the curve' and prevent the further spread of COVID-19, also impacted the continuity and availability of gender based violence (GBV) prevention and response services and deterred victims and survivors of gender based violence from seeking protection and care.

In line with the priorities outlined in the Nepal Country Preparedness and Response Plan (CPRP), the purpose of this project, funded by the European Commission (EU) in Nepal, is to ensure the availability of essential prevention and response services for GBV survivors during and after the COVID-19 lockdown and in the recovery phase. At a broad level, the project envisions a Nepal where women and girls live free from GBV both during and after the COVID-19 crisis. In order to reach this impact, the proposed project will address both the prevention side challenges, i.e. empowering women and girls to demand services as well as the response side challenges, i.e. ensuring survivor-centred and multi-sectoral services are available.

The Provincial Programme Analyst, GBV will contribute to the effective management of UNFPA supported GBV activities, ensuring multi-sectoral approach to prevention, mitigation and response to GBV in development and emergency settings. S/he will facilitate the delivery of UNFPA's GBV work plans and the appropriate application of systems and procedures. S/he will be expected to analyze and assess relevant political, social and economic trends and provide substantive inputs to project implementation, monitoring and reporting.

You would be responsible for:

1. Strategic Engagement and Technical Coordination

- Establishes and maintains strong working relationships with concerned Government counterparts at Provincial, and Local Government levels;
- Analyses and interprets the political, social and economic environment relevant to GBV Prevention and Response; and identifies opportunities for assistance and intervention in the province;
